### DETAILED ACTION

1. The Applicant Response dated October 6, 2006 to an Office Action dated July 7, 2006 is entered. Claims 1-9 are pending in this application.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John Biggers on December 1, 2006. The application claims have been amended as follows:

Claim 1, lines 3-5, change from:

"receiving, at an intermediary device, an authenticated callee identity for a callee answering a call, wherein said identity is authenticated by an origin device originating said call;"

to:

"receiving, at an intermediary device, an authenticated callee identity for a callee answering a call, wherein said identity is authenticated by an origin device originating said call by a caller;"

Claim 5, lines 4-6, change from:

“means for receiving, at said intermediary device, an authenticated callee identity for a callee answering a call from an origin device originating said call;”

to:

“means for receiving, at said intermediary device, an authenticated callee identity for a callee answering a call, wherein said identity is authenticated by an origin device originating said call by a caller;”.

Claim 9, lines 4-6, change from:

“means, recorded on said recording medium, for enabling receipt, at said intermediary device, of an authenticated callee identity for a callee answering a call from an origin device originating said call;”

to:

“means, recorded on said recording medium, for enabling receipt, at said intermediary device, of an authenticated callee identity for a callee answering a call, wherein said identity is authenticated by an origin device originating said call by a caller;”.

### REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

**Regarding Independent claims 1, 5, 9**, these claims with above modifications as authorized by Attorney Mr. John Biggers, recite the functionality “wherein said identity is authenticated by an origin device originating said call by a caller”.

The prior art of record Gallick and Farris do not teach the specific feature of a device, that a caller uses to make a call, also performing authentication of a callee that answers the call.

The remaining prior art of record fail to teach or fairly suggest substantially modifying Gallick and Farris with this specific feature in order to arrive at the invention as claimed in detail by the applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
